PROFILE SUMMARY:

Forward Deployed Engineer (FDE) & GenAI Developer with 3+ years of technical experience embedding with enterprise clients to architect, build, and deploy production LLM applications, Multi-Agent systems, MCP servers, and advanced RAG pipelines. Accelerates 0-to-1 prototyping and full-stack delivery using AI-native coding workflows (Claude Code, OpenAI Codex, Cursor, Windsurf, v0) alongside Python, FastAPI, Docker, and cloud deployments.

WORK EXPERIENCE:

Forward Deployed Engineer (FDE) | GenAI Developer — Jan 2024 – Present

AutolyxAi

- Embed directly with enterprise client engineering teams and C-suite stakeholders to lead technical discovery, architect custom AI systems, and ship rapid POCs to production.
- Accelerate end-to-end client delivery and codebase refactoring using AI-native coding agents (Claude Code, OpenAI Codex, Cursor, Windsurf, Copilot), cutting POC turnaround time by 50%.
- Architected multi-agent workflows and custom Model Context Protocol (MCP) tool servers using LangGraph, LangChain, and FastAPI to automate complex enterprise operations.
- Engineered production RAG & GraphRAG pipelines with hybrid search (Vector DBs + BM25), cross-encoder re-ranking, and OCR parsing (Docling/LlamaParse), achieving 94%+ retrieval precision.
- Implemented end-to-end LLM observability, evals, and semantic caching (LangSmith, Langfuse, Ragas, vLLM) across Dockerized AWS/Azure VPCs, slashing client token costs by 35%.

Manager – Retail & Channel Operations — May 2023 – Dec 2023

ICICI Securities Ltd

- Directed retail sales operations, MIS reporting, and business intelligence analysis, delivering executive dashboards and data-backed strategies to regional leadership.
- Automated daily and weekly KPI tracking pipelines using SQL, Python, and Advanced Excel, reducing manual reporting turnaround time by 30%.
- Analyzed customer transaction and channel data to identify high-margin growth opportunities and optimize field resource allocation.

Cluster Manager — May 2022 – May 2023

Axis Securities Pvt Ltd

- Analyzed sales data to improve branch performance and optimize business strategies across assigned clusters.
- Developed Excel and Power BI dashboards for real-time tracking of sales KPIs and operational funnels.
- Provided data-driven insights to Branch and Senior Managers, contributing to achieving 120% of the sales target.

Assistant Manager — Aug 2018 – April 2022

Kotak Securities Pvt Ltd

- Managed sales operations and branch performance tracking through automated MIS reporting.
- Developed Advanced Excel reports to track sales records, branch activities, and advisor productivity.
- Trained 25+ branch employees on consultative sales techniques and competitor analysis.

Management Trainee — July 2016 – July 2018

Joinmay Mumbai Electronics Pvt Ltd

- Managed a sales team and monitored performance through sales analysis and Excel-based MIS reports to consistently achieve monthly targets.
- Conducted training sessions to enhance product technical knowledge and sales execution.

EDUCATION:

M.M.S. in Marketing – Mumbai University – 2016
B.Sc. with Chemistry – Mumbai University – 2013

CERTIFICATIONS:

- Full Stack Data Science – iNeuron.ai | Prompt Engineering – Great Learning
- Generative AI, Agentic Workflows & MCP Architecture | Advanced Excel – Udemy

SKILLS:

- **AI Coding Agents & FDE Velocity Tools:** Claude (Claude 3.5/3.7 Sonnet, Claude Code CLI, Artifacts, Computer Use), OpenAI Codex & ChatGPT/o1/o3-mini, Cursor IDE, Windsurf, GitHub Copilot, Cline / Roo Code, Aider, v0.dev, Bolt.new, Lovable, Replit Agent, n8n, Make, Dify, Flowise.
- **LLMs & Agentic Orchestration:** OpenAI GPT-4o, Llama 3, Gemini 1.5 Pro, DeepSeek-R1, Mistral, LangGraph, LangChain, LlamaIndex, CrewAI, AutoGen, Model Context Protocol (MCP), OpenAI Agents SDK, DSPy, PydanticAI, Fine-Tuning (LoRA/QLoRA, Unsloth), vLLM, Ollama.
- **Advanced RAG & Document Intelligence:** Agentic & GraphRAG (Neo4j), Hybrid Search (Dense + BM25), Cross-Encoder Re-ranking (Cohere, BGE), Semantic Chunking, Pinecone, Qdrant, Milvus, ChromaDB, PGVector, Unstructured.io, LlamaParse, Docling, Multimodal Vision OCR.
- **Full-Stack AI & Enterprise Integration:** Python (Asyncio), TypeScript, FastAPI, REST & GraphQL APIs, WebSockets, Server-Sent Events (SSE), Next.js, React, Streamlit, Gradio, Celery, Redis, Kafka, Webhook Orchestration, ERP/CRM Connectors (Salesforce, SAP, ServiceNow).
- **Cloud, MLOps, Evals & Security:** Docker, Kubernetes, AWS (Bedrock, ECS, Lambda, S3), Azure OpenAI, GCP Vertex AI, GitHub Actions CI/CD, LangSmith, Langfuse, Arize Phoenix, Ragas, DeepEval, Guardrails AI, NeMo Guardrails, PII Masking (Presidio), OAuth2/JWT, RBAC, SOC2.
- **Forward Deployed & Data Analytics:** Embedded Client Engineering, Rapid POC-to-Production, Custom VPC/On-Prem Deployment, Live C-Suite Demos, SQL (PostgreSQL, MSSQL), Snowflake, BigQuery, dbt, Pandas, NumPy, Scikit-learn, Power BI, Tableau, Advanced Excel.

PROJECTS & CONTRIBUTION:

Enterprise Multi-Agent & MCP Workflow Platform (AutolyxAi):

- Architected an autonomous multi-agent system using Claude 3.5 Sonnet, OpenAI Codex, LangGraph, FastAPI, and custom MCP servers to automate ticket resolution, CRM updates, and ERP invoice workflows.
- Integrated real-time SSE token streaming, human-in-the-loop (HITL) approval gates, and Redis semantic caching, cutting response latency from 3.2s to 850ms and API costs by 30%.

Multimodal Enterprise RAG & GraphRAG Engine (Client Deployment):

- Designed a hybrid RAG engine over 50,000+ complex PDFs, scanned tables, and SQL databases using Docling/LlamaParse, LlamaIndex, Qdrant, and Cohere re-ranking.
- Boosted retrieval recall from 71% to 92% while enforcing Microsoft Presidio PII redaction, NeMo Guardrails, and automated CI/CD evaluation gates via Ragas & Langfuse.

Sales & Profitability Intelligence Pipeline (HEM.NX & Hukum Kijiye):

- Built automated Python/SQL ETL pipelines and real-time Power BI dashboards to track monthly KPIs, product margins, and regional sales velocity.
- Pinpointed low-margin SKUs (50%+ sales volume, 15% profit) and launched targeted cohort campaigns, lifting gross revenue by 16% and daily order volume by 30%.
